

Our Purpose

Stopp & VanHoy exists **to cultivate value for clients** by offering quality professional services and advice that responds to their clients' needs.

Guiding Beliefs

We believe in cultivating **personal growth** for our employees. By investing in our employees, we help them to better foster successful and meaningful relationships with our clients.

We strive to improve the overall **quality of life** of everyone we serve. We recognize our responsibilities as CPAs and advisors to the families, investors, donors and citizens who rely on our advice and consultation.

We believe in making ourselves available to our clients and being **responsive** to their needs.

We believe in taking **leadership** as advisors and consultants to provide comprehensive advice that addresses our clients' needs. Understanding their entire financial situations allows us to create more effective solutions.

We develop deep, **meaningful relationships** and help them with whatever issues they face.

Value Proposition

Stopp & VanHoy offers a progressive, collaborative experience to individuals and businesses. We combine industry knowledge, teamwork and our guiding beliefs to **provide a meaningful experience and raise client expectations.**

Our Story

Our History

Our CPA firm was founded in 1988 and provides quality tax, attestation and consulting services to individuals and small-business owners. We take pride in providing the area with exceptional accounting services, and over the years, we have grown to be recognized as a leading St. Louis accounting firm. More than 25 years later, our firm has grown into an enterprise that is represented by Stopp & VanHoy, an accounting and tax-centric wealth management organization.

Our Innovations

In 2014, we responded to the needs of our clients and added wealth management to our growing service brand. Stopp & VanHoy Wealth Management is completely integrated with Stopp & VanHoy, CPAs & Business Advisors, allowing our team to offer a tax-centric approach to wealth management that values tax planning as much as retirement planning and investing. Our consolidated approach to tax, accounting and wealth management services translates into collaborative relationships that focus on the clients' long-term goals.
